How America built a “Kulturraum” for Bamberg”

For many years, the Dominikanerkirche in Bamberg was the name of the Bamberg Symphony. Many people remember going to concerts

and plays in the “Kulturraum” before it closed in 1993. But how many Bamberger know the story of how this former church became a concert hall after the war, or realize that the Americans played a role in creating it? One of a series of talks to commemorate the 25th anniversary of Bamberg’s world cultural heritage title.

Come and discuss the talk afterwards with us.
